Question 6: I would like to see more discussion programs. 1 2 3 4 5

Note: Eighteen of the 121 survey respondents (14.9%) who answered at least one survey question declined to answer this question. That number perhaps indicates an uncertainty about the issue. In addition, the "disagrees" (54.6%) measured only slightly above half of the responses to the question and only 43.8% of the total survey responses. Perhaps another "test" program with a different subject and speaker might be in order to more definitively assess audience opinion on this issue. thm
